# Subject index

(A) = Abstract

- Abdominal aorta
  - , spiral CT angiography of . . . . . 143
- Abdominal aortic aneurysm
  - , inflammatory, pathogenesis and etiology of . . . . . 357
  - , mycotic, CT findings of . . . . . 321
  - , spiral CT angiography of . . . . . 365
- Abdominal metastases
  - , of infiltrating lobular breast carcinoma . . . . . 156
- Abdominal pain
  - , recurrent bladder cancer in patients with (A) . . . . . 362
- Abdominal tumor staging
  - , technical aspects and imaging findings of laparoscopic US for . . . . . 125
- Absent gastric venous drainage
  - , color Doppler sonography of . . . . . 502
- Achalasia
  - , differentiation from pseudoachalasia by CT (A). . . . . 544
- Acquired immunodeficiency syndrome (AIDS)
  - , esophageal lymphoma related to . . . . . 11
- Adenocarcinoma
  - , cystic, with choledochal cyst, in dilated intrahepatic bile duct. . . . . 190
  - , pancreatic, comparison of spiral CT and MRI in detection and stag-  
ing of . . . . . 429
- Adenomas
  - , colonoscopic miss rates of (A) . . . . . 237
- Adenomyosis
  - , uterine, rapid T2-weighted MRI of . . . . . 531
- Adrenal myelolipoma
  - , clinical, radiological, histological features of (A) . . . . . 122
  - , natural history and treatment of (A) . . . . . 547
- Amyloidosis
  - , primary, hepatic and splenic visceral calcification in . . . . . 519
  - , urethral strictures diagnosed as . . . . . 448
- Anal sphincter defects
  - , sonography vs. needle electromyography in evaluating (A) . . . . . 237
- Anastomoses
  - , between spermatic and visceral veins. . . . . 226
- Angiography
  - , arterial invasion by pancreatic tumors evaluated by. . . . . 204
  - , compared with techniques in preoperative detection of pancreatic  
insulinoma . . . . . 295
  - , CT hepatic, false negative findings on . . . . . 52
  - , CT, of abdominal arteries, techniques and applications of . . . . . 143
  - , MR, nodular regenerative hyperplasia and portal vein absence stud-  
ied with . . . . . 506
  - , spiral CT, combined with CTAP for liver tumor detection. . . . . 404
  - , spiral CT, for preoperative assessment of epigastric tumors  
(A) . . . . . 120
  - , spiral CT, median arcuate ligament syndrome diagnosed by . . . . . 318
  - , spiral CT, nonpathological fical enhancements on . . . . . 55
  - , spiral CT, pelvic and abdominal applications of. . . . . 365
- Appendicitis
  - , intraoperative US diagnosis of pylephlebitis as complication  
of . . . . . 401
  - , recurrent, existence and incidence of (A). . . . . 360
- Arterial blood pressure
  - , simple renal cysts and (A) . . . . . 546
- Arteriography
  - , for preoperative assessment of epigastric tumors (A) . . . . . 120
- Arteriovenous malformation
  - , in infancy, diagnosis and management of (A) . . . . . 120
- Azygos-hemiazygos continuation
  - , Budd-Chiari syndrome caused by . . . . . 499
- Barium enema
  - , appropriateness of use in Medicaid population . . . . . 41
  - , for pencil-thin stools and constipation . . . . . 430
  - , intussusception and extrusion of sigmoid lipoma through anus  
after . . . . . 389
  - , sensitivity in detecting colorectal cancer (A) . . . . . 237
  - , venous intravasation of barium as complication of . . . . . 513
- Bezoar
  - , small bowel obstruction secondary to. . . . . 315
- Bile duct
  - , caliber of measured by ERCP . . . . . 509
  - , carcinosarcoma arising from . . . . . 85
  - , radiologic features of papillary adenoma and papillomatosis  
of . . . . . 87
- Bile duct stones
  - , MR cholangiography detection of (A) . . . . . 545
- Biliary cancer
  - , ERCP stent used as target for percutaneous biopsy of . . . . . 307
- Biliary pancreatitis
  - , acute, role of early ERCP and papillotomy in treating (A). . . . . 453
- Biliary strictures
  - , retrograde cholangiography of. . . . . 421
- Bladder cancer
  - , excretory urography at first diagnosis of (A). . . . . 362
  - , MR-guided biopsy in nodal metastases in . . . . . 524
  - , primary, upper tract tumors and (A) . . . . . 122
  - , recurrent, in patients with abdominal pain after cystectomy  
(A) . . . . . 362
- Bone scintigraphy
  - , prostate cancer assessed using (A) . . . . . 614
- Book review
  - , acute abdomen: CT and sonography of . . . . . 123
  - , alimentary tract, Shackelford's surgery for . . . . . 123
  - , atlas of clinical gastrointestinal endoscopy . . . . . 241
  - , cirrhosis complications . . . . . 455
  - , colorectal cancer: prevention and detection of . . . . . 455
  - , diagnostic imaging and interventional radiology: complications  
in . . . . . 363
  - , gastroenterology and hepatology . . . . . 455
  - , gastroenterology and hepatology: visual reference . . . . . 548
  - , gastroenterology: complications in . . . . . 363
  - , liver and biliary diseases . . . . . 241
  - , spiral computed tomography . . . . . 548
  - , transjugular intrahepatic portosystemic shunts . . . . . 241
  - , ultrasound for surgeons. . . . . 548
- Bowel
  - , CT appearance of leukemic invasion of . . . . . 464
- Breast
  - , fellowships for education in imaging of . . . . . 551
- Breast carcinoma
  - , lobular, abdominal metastases of . . . . . 156
- Budd-Chiari syndrome
  - , due to complex venous anomalies. . . . . 499
- Caldwell needle
  - , efficacy in large volume paracentesis (A) . . . . . 121
- Carcinosarcoma
  - , of extrahepatic bile ducts . . . . . 85
- Cat scratch disease
  - , obstructive jaundice caused by . . . . . 418
- Caudate lobe
  - , pseudotumorous enlargement of paracaval portion of . . . . . 398
- Cervical carcinoma

- , comparison of various MRI of . . . . . 103
- , overview of and role of imaging in . . . . . 208
- Cervix
  - , ultrasonography of, during pregnancy . . . . . 569
- Chemotherapy
  - , pneumatosis cystoides intestinalis following . . . . . 395
- Children
  - , CT evaluation of small bowel obstruction in . . . . . 466
  - , pancreatic trauma in (A) . . . . . 361
  - , portal hypertension in . . . . . 72
  - , PTR for renovascular hypertension in (A) . . . . . 361
- Cholangiography
  - , CT, of choledochal cyst with adenocarcinoma . . . . . 190
  - , distinction between common bile duct stones and air bubbles in . . . . . 541
  - , MR, in hepatolithiasis (A) . . . . . 545
  - , of carcinosarcoma of extrahepatic bile duct . . . . . 85
  - , retrograde, of malignant biliary strictures . . . . . 421
  - , role in diagnosis of primary sclerosing cholangitis . . . . . 194
- Cholecystojejunostomy
  - , varices shown by enteroclysis after . . . . . 474
- Choledochal cyst
  - , with adenocarcinoma in intrahepatic bile duct . . . . . 190
- Choledocholithiasis
  - , caused by migrated surgical clip . . . . . 293
  - , cholangiographic distinction between air bubbles and . . . . . 541
  - , endoscopic ultrasonography for diagnosing (A) . . . . . 453
- Chylous ascites
  - , tuberculous, CT findings of . . . . . 50
- Cirrhosis
  - , endoscopic US for study of portal hypertension in (A) . . . . . 121
  - , US-detected macoregenerative nodules in (A) . . . . . 545
- Colitis
  - , nondiverticular, sonographic assessment of bowel wall in . . . . . 167
- Collateral vessels
  - , overview of . . . . . 117
- Colon
  - , cystic fibrosis and wall thickening of (A) . . . . . 545
  - , intussusception and extrusion of sigmoid lipoma in causing obstruction in . . . . . 389
  - , intussusception caused by pneumatic cystoides coli . . . . . 392
  - , retropancreatic, as congenital internal intra-abdominal hernia secondary to embryonic rotation . . . . . 426
- Colon cancer
  - , prognostic importance of peritoneal involvement in (A) . . . . . 612
- Colonoscopy
  - , appropriateness of use in Medicaid population . . . . . 41
  - , for patients with  $\leq 5$  mm proximal adenomas (A) . . . . . 360
  - , miss rates of (A) . . . . . 237
  - , of small depressed neoplasms of large bowel . . . . . 325
  - , sensitivity in detecting colorectal cancer (A) . . . . . 237
- Color Doppler sonography
  - , aberrant gastric venous drainage shown by . . . . . 502
  - , compared with power Doppler in imaging focal nodular hyperplasia of liver . . . . . 268
  - , extrahepatic portosystemic shunt detected by . . . . . 79
  - , gallbladder carcinoma with empyema diagnosed by . . . . . 187
  - , gallbladder varices diagnosed by . . . . . 82
  - , in hepatic focal nodular hyperplasia . . . . . 178
  - , of aneurysms of portal and superior mesenteric veins . . . . . 287
  - , of hemodynamics of portal vein aneurysm . . . . . 281
  - , of portal hypertension in children and young adults . . . . . 72
- Colorectal cancer
  - , accuracy of hydrosoneography for diagnosis and TNM staging of . . . . . 24
  - , colonoscopy and barium enema detection of (A) . . . . . 237
  - , negative intraoperative US and recurrence of (A) . . . . . 452
  - , survival after hepatic resection of metastases of (A) . . . . . 612
- Colorectal metastases
  - , hepatic, calcification of (A) . . . . . 360
- Colovenous fistula
  - , complicating diverticulitis and mimicking colouretal fistula . . . . . 513
- Common bile duct
  - , surgical clip as origin of stone in . . . . . 293
- Common bile duct stones
  - , cholangiographic distinction between air bubbles and . . . . . 541
  - , ESWL therapy for (A) . . . . . 453
  - , role of early ERCP and papillotomy in treating (A) . . . . . 453
- Common hepatic duct
  - , ERCP shows narrowing of . . . . . 538
- Computed tomographic angiography
  - , of HCC, false negative findings on . . . . . 52
  - , of liver neoplasms, focal enhancements on . . . . . 55
  - , spiral, combined with CTAP for liver tumor detection . . . . . 404
  - , spiral, median arcuate ligament syndrome diagnosed by . . . . . 318
  - , spiral, pelvic and abdominal applications of . . . . . 365
- Computed tomographic arterial portography (CTAP)
  - , combined with spiral CTA for liver tumor detection . . . . . 404
  - , gallbladder varices diagnosed by . . . . . 82
- Computed tomography
  - , after Lipiodol injection, intrahepatic metastatic nodules of HCC detected at . . . . . 253
  - , compared with EUS for diagnosing choledocholithiasis (A) . . . . . 453
  - , compared with techniques in preoperative detection of pancreatic insulinoma . . . . . 295
  - , complements pyelography of renocolic fistulas . . . . . 96
  - , Crohn's disease posttreatment findings of . . . . . 160
  - , diagnosis and followup of primary sclerosing cholangitis by . . . . . 194
  - , differentiation of achalasia from pseudoachalasia by (A) . . . . . 544
  - , editorial commentary on irresectability of esophageal carcinoma predicted by . . . . . 138
  - , effect of portal venous flow augmentation on liver enhancement for . . . . . 277
  - , gallbladder carcinoma with empyema diagnosed by . . . . . 187
  - , gastric involvement in Waldenstrom macroglobulinemia detected by . . . . . 461
  - , helical, arterial invasion by pancreatic tumors evaluated by . . . . . 204
  - , helical, duodenal schwannoma detected by . . . . . 154
  - , irresectability in esophageal carcinoma predicted by . . . . . 132
  - , mycotic aneurysm of abdominal aorta diagnosed by . . . . . 321
  - , nodular regenerative hyperplasia and portal vein absence studied with . . . . . 506
  - , noncontrast-enhanced spiral, obstructing ureteral calculi detected by (A) . . . . . 547
  - , of abdominal metastases of infiltrating lobular breast carcinoma . . . . . 156
  - , of abdominal visceral calcification in primary amyloidosis . . . . . 519
  - , of aneurysms of portal and superior mesenteric veins . . . . . 287
  - , of carcinosarcoma of extrahepatic bile duct . . . . . 85
  - , of colovenous fistula complicating diverticulitis . . . . . 513
  - , of direct leukemic invasion of bowel . . . . . 464
  - , of gastric liposarcoma . . . . . 373
  - , of mesenteric vascular anatomy . . . . . 477
  - , of pancreatic islet cell carcinoma, delayed enhancement on . . . . . 304
  - , of paracaval portion of caudate lobe of liver . . . . . 398
  - , of postoperative followup of Nissen fundoplication . . . . . 457
  - , of torsion of greater momentum . . . . . 45
  - , of tuberculous chylous ascites . . . . . 50
  - , percutaneous needle biopsy guided by . . . . . 307

- , preoperative assessment of advanced gastric carcinoma by (A) . . . . . 544
- , preoperative, efficacy in evaluating lymph node metastasis of prostate cancer (A) . . . . . 122
- , regression of hepatic adenoma shown by . . . . . 274
- , role in cervical carcinoma . . . . . 208
- , small bowel obstruction due to phytobezoar diagnosed by . . . . . 471
- , small bowel obstruction secondary to bezoar diagnosed by . . . . . 315
- , small pancreatic adenocarcinoma detected and staged by . . . . . 429
- , spiral, of adult mesoblastic nephroma . . . . . 439
- , spiral, value of arterial vs. late phase in detection of . . . . . 199
- Congenital hepatic fibrosis
  - , in children and young adults, sonographic findings of . . . . . 72
- Constipation
  - , use of barium enema for . . . . . 450
- Contrast media
  - , gadoteridol as . . . . . 233
  - , used in abdominal MRI, oral magnetic particles as . . . . . 381
  - , used in transvaginal ultrasonography . . . . . 243
- Copper
  - , in HCC, effect on signal intensity of MRI . . . . . 60
- Cost analysis
  - , of pelvic MRI . . . . . 597
- Crohn's disease
  - , concordance of site and type within families with (A) . . . . . 120
  - , CT findings after treatment of . . . . . 160
  - , effect of age on type, site, and course (A) . . . . . 120
  - , MRI at admission, remission, and relapse . . . . . 164
- Cystic fibrosis
  - , colonic wall thickness measured by US in patients with (A) . . . . . 545
  - , pancreatic cystosis in . . . . . 313
- Cystic teratoma
  - , intraperitoneal fat stripe as sign of rupture of . . . . . 47
- Digital rectal examination
  - , compared with transectal ultrasound for staging prostate cancer (A) . . . . . 454
- Diuretic renography
  - , of partial uretic obstruction (A) . . . . . 239
- Diverticulitis
  - , colovenous fistula complicating . . . . . 513
- Duodenal schwannoma
  - , GI bleeding caused by . . . . . 154
- Electromyography
  - , anal sphincter defects evaluated by (A) . . . . . 237
- Emphysematous pyelonephritis
  - , CT-guided percutaneous drainage treatment of (A) . . . . . 546
- Endometrium
  - , ultrasonography of . . . . . 557
- Endorectal surface coil MRI
  - , of prostate and seminal tract for determining obstructive infertility . . . . . 348
- Endoscopic retrograde cholangiopancreatography (ERCP)
  - , common bile duct caliber measured by . . . . . 509
  - , for common bile duct stones after laparoscopic cholecystectomy (A) . . . . . 546
  - , narrowed common hepatic duct shown by . . . . . 538
  - , of malignant biliary strictures . . . . . 421
  - , of pancreas at removal of polyethylene duct stent (A) . . . . . 121
  - , pancreatic diseases treated with . . . . . 489
  - , percutaneous biopsy of pancreatic/biliary duct strictures using stent from . . . . . 307
  - , role in treating acute biliary pancreatitis without obstructive jaundice (A) . . . . . 453
- Endoscopy
  - , upper GI, overuse of (A) . . . . . 452
- Endosonography
  - , anal sphincter defects evaluated by (A) . . . . . 237
  - , three-dimensional, for staging of rectal cancer (A) . . . . . 545
- Enteroclysis
  - , combined with enteroscopy in examining small bowel (A) . . . . . 452
  - , varices after cholecystojejunostomy shown by . . . . . 474
- Enteroscopy
  - , combined with enteroclysis in examining small bowel (A) . . . . . 452
- Enucleative surgery
  - , role of imaging in preoperative assessment of renal cell carcinoma for (A) . . . . . 239
- Epigastric tumors
  - , spiral CT vs intraarterial angiography for preoperative assessment of (A) . . . . . 120
- Esophageal carcinoma
  - , CT prediction of irresectability in . . . . . 132
  - , editorial commentary CT prediction of irresectability of . . . . . 138
  - , MRI of . . . . . 20
- Esophageal lymphoma
  - , AIDS and . . . . . 11
- Esophageal stents
  - , nonexpandable silicone, for treating tracheoesophageal fistulas . . . . . 14
- Esophagus
  - , AIDS-related lymphoma of . . . . . 11
  - , primary non-Hodgkin's lymphoma of . . . . . 8
- Ethyl propionate
  - , topical dissolution of cholesterol gallbladder stones using (A) . . . . . 612
- Excretory urography
  - , at first diagnosis of bladder cancer (A) . . . . . 362
- Extracorporeal shock wave lithotripsy (ESWL)
  - , common bile duct stones treated by (A) . . . . . 453
  - , obstructing pancreatic duct calculi treated by (A) . . . . . 613
- Extravasation invasion
  - , of advanced gastric cancer, dynamic MRI showing . . . . . 35
- Fallopian tubes
  - , hysterosalpingo-contrast sonography of . . . . . 243
- Fatty infiltration
  - , of liver parenchyma distal to metastatic liver tumor . . . . . 496
- Female pelvis
  - , imaging of . . . . . 579
- Fetus
  - , fast-scan MRI of . . . . . 589
- Fibrosis
  - , MRI distinguishes recurrent rectosigmoid carcinoma from . . . . . 338
- Fine needle aspiration
  - , of renal masses (A) . . . . . 613
- Fistulas
  - , pelvic, magnetic resonance imaging of . . . . . 91
  - , renocolic, CT and direct pyelography of . . . . . 96
- Flank pain
  - , spiral CT evaluation of (A) . . . . . 547
- Fluoroscopy
  - , of abdominal metastases of infiltrating lobular breast carcinoma . . . . . 156
- Focal nodular hyperplasia
  - , hepatic, color Doppler US of . . . . . 178
  - , hepatic, diagnosed by serial MRI using different contrast agents . . . . . 264
  - , hepatic, power Doppler imaging and evaluation of resistive index in . . . . . 268
- Foregut cyst
  - , retroperitoneal, MRI of . . . . . 111

- Foreign bodies  
 —, as nidus for common bile duct stone . . . . . 293  
 —, in inferior vena cava, sonographic detection of . . . . . 108
- Gadolinium ethoxybenzyl diethylenetriaminepentaacetic acid (Gd-EOB-DTPA)  
 —, MRI of focal nodular hyperplasia using . . . . . 264
- Gadolinium-DOTA  
 —, MRI of focal nodular hyperplasia using . . . . . 264
- Gadoteridol  
 —, as contrast media for retrograde pyelography . . . . . 233
- Gallbladder cancer  
 —, coincidence of Mirizzi syndrome and (A) . . . . . 361  
 —, color Doppler US and CT findings on . . . . . 187  
 —, retrograde cholangiography of . . . . . 421
- Gallbladder stones  
 —, cholesterol, ethyl propionate used for topical dissolution of (A) . . . . . 612
- Gallbladder varices  
 —, in direct communication with intrahepatic portal veins . . . . . 82
- Gastric carcinoma  
 —, accuracy of hydrosoneography for diagnosis and TNM staging of . . . . . 24  
 —, dynamic MRI for extraserosal invasion of . . . . . 35  
 —, role of CT in assessing perigastric spread of (A) . . . . . 544
- Gastric emptying  
 —, three-dimensional ultrasonography of (A) . . . . . 611
- Gastric liposarcoma  
 —, correlation of CT and morphologic appearance of . . . . . 373
- Gastric lymphoma  
 —, compared with lymph node lymphoma in stage distribution and dissemination patterns (A) . . . . . 359  
 —, primary, *Helicobacter pylori* and (A) . . . . . 359
- Gastric stump cancer  
 —, clinicopathologic characteristics and prognosis of (A) . . . . . 452
- Gastrinoma  
 —, EUS and somatostatin receptor scintigraphy in localizing (A) . . . . . 238
- Gastroesophageal reflux disease  
 —, solitary ulcers in . . . . . 5
- Gastrointestinal lymphoma  
 —, clinicopathologic features and outcome of (A) . . . . . 359
- Gastrointestinal tract  
 —, nonsteroidal antiinflammatory drugs and . . . . . 1
- Gastrointestinal tumors  
 —, TNM staging of, by hydrosoneography . . . . . 24
- Genital tract tuberculosis  
 —, MRI appearance of . . . . . 445
- Giant inferior mesenteric vein  
 —, of liver, portal vein absence and nodular regenerative hyperplasia in patient with . . . . . 506
- Gleason grading  
 —, of needle biopsy of prostatectomy specimen (A) . . . . . 362
- Greater omentum  
 —, CT and MRI findings of torsion of . . . . . 45
- Gynecology  
 —, fellowships for education in imaging in . . . . . 551  
 —, imaging in . . . . . 550  
 —, use of MRI in . . . . . 579
- Hepatolithiasis  
 —, MR cholangiography in (A) . . . . . 545
- Helicobacter pylori*  
 —, primary gastric lymphoma and (A) . . . . . 359
- Hematuria  
 —, urological investigation and age of patients with (A) . . . . . 239
- Hepatic adenoma  
 —, CT and MRI show regression of . . . . . 274
- Hepatic parenchyma  
 —, distal to metastatic liver tumor, focal fatty infiltration of . . . . . 496
- Hepatocellular carcinoma  
 —, cytological vs. microhistological diagnosis of (A) . . . . . 361  
 —, editorial commentary of Lipiodol-CT for . . . . . 259  
 —, effect of metal content on signal intensity of MRI . . . . . 60  
 —, false negative findings on CT angiography of . . . . . 52  
 —, high-resolution MRI evaluation of . . . . . 182  
 —, intraperitoneal seeding after percutaneous ethanol ablation therapy for . . . . . 261  
 —, Lipiodol-CT detection of intrahepatic metastatic nodules of . . . . . 253  
 —, percutaneous acetic acid injection compared with transcatheter arterial embolization in treatment of (A) . . . . . 238  
 —, US-detected macroregenerative nodules as precursors of (A) . . . . . 545  
 —, US-guided percutaneous acetic acid injection treatment of (A) . . . . . 238
- Hernia  
 —, congenital internal, intra-abdominal, represented as retropancreatic colon . . . . . 426
- Hydatid disease  
 —, preoperative diagnosis of (A) . . . . . 454
- Hydronephrosis  
 —, peripelvic cysts diagnosed as . . . . . 346
- Hydrosoneography  
 —, TNM staging of gastrointestinal tumors by . . . . . 24
- Hyoscine butylbromide  
 —, as antiperistaltic agent in abdominal MRI . . . . . 381
- Hysterosalpingo-contrast sonography  
 —, gynecologic disorders assessed by . . . . . 243
- Hysterosonography  
 —, of endometrium . . . . . 557
- Ileitis  
 —, nondiverticular, sonographic assessment of bowel wall in . . . . . 167
- Ileocecal region inflammation  
 —, effect on SMA Doppler US . . . . . 483, 487
- Ileostomy  
 —, technique for measuring GI transit in (A) . . . . . 360
- Ileum  
 —, clinicopathological study of carcinoids of (A) . . . . . 611
- Iliopsoas muscle  
 —, percutaneous decompression of spontaneous hematoma in . . . . . 114
- Implantation metastases  
 —, from ovarian carcinoma after paracentesis . . . . . 522
- Impotence  
 —, radioisotope penile plethysmography in penile hemodynamic changes in . . . . . 354
- Infantile hemangioma  
 —, hepatic, diagnosis and management of (A) . . . . . 120
- Inferior vena cava  
 —, Budd-Chiari syndrome caused by agenesis of hepatic segment of . . . . . 499  
 —, ultrasonographic detection of ingested foreign bodies in . . . . . 108
- Inflammatory bowel disease  
 —, imaging modalities in . . . . . 173  
 —, nondiverticular, sonographic assessment of bowel wall in . . . . . 167
- Insulinoma  
 —, EUS and somatostatin receptor scintigraphy in localizing (A) . . . . . 238  
 —, pancreatic, comparison of imaging techniques in preoperative detection of . . . . . 295
- Intestinal angina  
 —, caused by celiac artery compression by median arcuate ligament . . . . . 318
- Intestinal malrotation  
 —, relationship of embryonic SMA and SMV and . . . . . 477

- Intrahepatic metastatic nodules  
 —, of HCC detected at Lipiodol-CT . . . . . 253
- Intravenous gadolinium-enhanced MRI  
 —, bladder fistulas detected by . . . . . 91
- Intussusception  
 —, colocolic, caused by pneumatosis cystoides coli . . . . . 392  
 —, of sigmoid lipoma causing colonic obstruction . . . . . 389
- Iron  
 —, in HCC, effect on signal intensity of MRI . . . . . 60
- Irresectability  
 —, of esophageal carcinoma aortic invasion predicted by . . . . . 132
- Islet cell carcinoma  
 —, delayed enhancement on dynamic CT of . . . . . 304
- Jejunoleal carcinoids  
 —, clinicopathological study of (A) . . . . . 611
- Laparoscopic cholecystectomy  
 —, ERCP and sphincterotomy after (A) . . . . . 546
- Large bowel neoplasms  
 —, colonoscopic and radiologic images of . . . . . 325
- Leiomyoma  
 —, uterine, rapid T2-weighted MRI of . . . . . 531
- Leiomyosarcoma  
 —, MRI and histopathologic features of hepatic metastases from . . . . . 67
- Leukemia  
 —, CT appearance of invasion into bowel of . . . . . 464
- Lipiodol-CT  
 —, correlation of pathology of nodules of HCC with imaging of . . . . . 253  
 —, for detecting HCC metastases, editorial commentary on . . . . . 259
- Liver  
 —, aberrant gastric venous drainage into medial segment of . . . . . 502  
 —, CT and MRI of paracaval portion of caudate lobe of . . . . . 398  
 —, effect of metal content on signal intensity of MRI of . . . . . 60  
 —, effect of portal venous augmentation on enhancement of for CT . . . . . 277  
 —, effect of TIPS on function of (A) . . . . . 453  
 —, portal vein absence and nodular regenerative hyperplasia of . . . . . 506  
 —, primary amyloidosis and visceral calcification of . . . . . 519  
 —, survival after resection of metastatic colorectal cancer from (A) . . . . . 612
- Liver cancer  
 —, calcification of colorectal metastases of (A) . . . . . 360
- Liver cirrhosis  
 —, effect on pseudolesions (A) . . . . . 238  
 —, in children and young adults, sonographic findings of . . . . . 72  
 —, spleen size and portal hemodynamics in portal hypertension due to (A) . . . . . 238
- Liver disease  
 —, altered small bowel motility and severity of (A) . . . . . 544
- Liver neoplasms  
 —, combined spiral CTA and CTAP for detection and characterization of . . . . . 404  
 —, from pancreatic islet cell tumor . . . . . 496  
 —, MRI findings correlated with histopathologic features of . . . . . 67  
 —, MRI findings of, using liver-specific contrast agents . . . . . 264  
 —, nonpathological focal enhancements on spiral CT angiography of . . . . . 55  
 —, signal hyperintensity on spin-echo T1-weighted MRI of . . . . . 410
- Lower gastrointestinal tract  
 —, NSAIDs and bleeding in (A) . . . . . 544
- Lymphoma  
 —, uterine, MRI of . . . . . 441
- Magnetic resonance imaging  
 —, compared with techniques in preoperative detection of pancreatic insulinoma . . . . . 295  
 —, contrast-enhanced, of ovarian fibroma . . . . . 535  
 —, detection and staging of renal cell carcinoma by . . . . . 216  
 —, dynamic, for extraserosal invasion of advanced gastric cancer . . . . . 35  
 —, fast-scan, application in obstetrics . . . . . 589  
 —, fat-suppressed, fat deposition in liver lesions diagnosed by . . . . . 410  
 —, for diagnosing recurrent rectal carcinoma, editorial commentary on . . . . . 343  
 —, high resolution, HCC evaluated by . . . . . 182  
 —, histopathologic features of hepatic metastases from leiomyosarcoma correlated with . . . . . 67  
 —, histopathologic features of stromal invasion by cervical carcinoma correlated with . . . . . 103  
 —, hyoscine butylbromide with and without oral magnetic particles in . . . . . 381  
 —, nodular regenerative hyperplasia and portal vein absence studied with . . . . . 406  
 —, of Crohn's disease . . . . . 164  
 —, of genital tract tuberculosis . . . . . 445  
 —, of HCC, effect of metal content on signal intensity of MRI . . . . . 60  
 —, of male infertility with endorectal surface coil . . . . . 348  
 —, of paracaval portion of caudate lobe of liver . . . . . 398  
 —, of pelvic fistulas . . . . . 91  
 —, of pelvis, cost effectiveness of . . . . . 597  
 —, of primary uterine lymphoma . . . . . 441  
 —, of retroperitoneal foregut cyst . . . . . 111  
 —, of sagittal section of thoracic esophageal carcinoma . . . . . 20  
 —, of torsion of greater omentum . . . . . 45  
 —, of urinary bladder volume, compared with US (A) . . . . . 240  
 —, peritoneal carcinomatosis identified by . . . . . 235  
 —, rapid T2-weighted, of uterine leiomyoma and adenomyosis . . . . . 531  
 —, recurrent rectosigmoid carcinoma distinguished from fibrosis by . . . . . 338  
 —, regression of hepatic adenoma shown by . . . . . 274  
 —, role in cervical carcinoma . . . . . 208  
 —, role in diagnostic therapy, vascular intervention, and biopsies pelvis . . . . . 524  
 —, small pancreatic adenocarcinoma detected and staged by . . . . . 429  
 —, unenhanced and contrast-enhanced, of struma ovarii . . . . . 100  
 —, use in gynecology . . . . . 579  
 —, with liver-specific contrast agents, of hepatic focal nodular hyperplasia . . . . . 264
- Male infertility  
 —, MRI with endorectal surface coil . . . . . 348
- Median arcuate ligament syndrome  
 —, spiral CT angiography diagnosis of . . . . . 318
- Medicaid population  
 —, use of barium enema and colonoscopy in . . . . . 41
- Mesenteric vascular anatomy  
 —, computed tomography of . . . . . 477
- Mesoblastic nephroma  
 —, adult, spiral CT appearance of . . . . . 439
- Mirizzi syndrome  
 —, coincidence of gallbladder cancer and (A) . . . . . 361
- Multiple lymphomatous polyposis  
 —, clinicopathologic features of (A) . . . . . 359
- Mycotic aneurysm  
 —, of abdominal aorta, CT diagnosis of . . . . . 321
- Nissen fundoplication  
 —, computed tomography of . . . . . 457
- Non-Hodgkin's lymphoma  
 —, gastric vs. lymph node, dissemination pattern of (A) . . . . . 359  
 —, primary, of esophagus . . . . . 8

- Nonsteroidal antiinflammatory drugs (NSAIDs)  
—, gastrointestinal tract and . . . . . 1
- Obstetrics  
—, application of fast MRI in . . . . . 589
- Obstructive jaundice  
—, caused by cat scratch disease . . . . . 418
- Omentum  
—, cystic teratoma of ovary and . . . . . 516
- Oral contraceptives  
—, regression of hepatic adenoma after cessation of . . . . . 274
- Oral magnetic particles  
—, hyoscine butylbromide in abdominal MRI with and without . . . . . 381
- Ostial renal-artery stenoses  
—, intravascular stents for treatment of (A) . . . . . 454
- Ovarian carcinoma  
—, infiltrative subcutaneous metastases from . . . . . 522
- Ovarian cysts  
—, MRI of . . . . . 579
- Ovarian fibroma  
—, contrast-enhanced MRI of . . . . . 535
- Ovary  
—, cystic teratoma of omentum and . . . . . 516
- Pain  
—, outcome of resection and survival of pancreatic cancer predicted by (A) . . . . . 612
- Pancreatic adenocarcinoma  
—, arterial and late phase spiral CT for detection of . . . . . 199
- Pancreatic cancer  
—, ERCP stent used as target for percutaneous biopsy of . . . . . 307  
—, preoperative pain as predictor of surgical outcome for (A) . . . . . 12
- Pancreatic cystosis  
—, in cystic fibrosis . . . . . 313
- Pancreatic duct calculi  
—, obstructing, extracorporeal shock wave lithotripsy for treatment of (A) . . . . . 613
- Pancreatic duct stents  
—, ductal and parenchymal changes due to (A) . . . . . 121
- Pancreatic head carcinoma  
—, retrograde cholangiography of . . . . . 421
- Pancreatic neoplasms  
—, comparison of imaging techniques in preoperative detection of . . . . . 295  
—, comparison of spiral CT and MRI in detection and staging of . . . . . 429  
—, delayed enhancement on dynamic CT of . . . . . 304  
—, endoscopic intervention for . . . . . 489
- Pancreatic trauma  
—, in children, double-contrast CT of (A) . . . . . 361
- Pancreatic tumors  
—, helical CT vs angiography in evaluating arterial invasion by . . . . . 204
- Pancreatitis  
—, endoscopic intervention for . . . . . 489
- Pancreatobiliary carcinoma  
—, EUS detection and portal venous invasion by . . . . . 434
- Papillary adenoma  
—, of biliary tract, imaging findings of . . . . . 87
- Papillomatosis  
—, of biliary tract, imaging findings of . . . . . 87
- Papillotomy  
—, role in treating acute biliary pancreatitis without obstructive jaundice (A) . . . . . 453
- Paracentesis  
—, infiltrative subcutaneous metastases from ovarian cancer after . . . . . 522  
—, large volume, Caldwell needle/cannula compared with angiocath needle in (A) . . . . . 121
- Partial uretic obstruction  
—, correlation of color Doppler US and diuretic renography findings with grades and durations of (A) . . . . . 239
- Pelvic fistulas  
—, MRI of . . . . . 91
- Pelvic silicone prosthesis  
—, for prevention of radiation enteritis, US and CT features of . . . . . 175
- Pelvis  
—, MR intervention in . . . . . 524
- Pencil-thin stools  
—, use of barium enema for . . . . . 450
- Penile hemodynamics  
—, in impotence, role of radioisotope penile plethysmography in . . . . . 354
- Percutaneous acetic acid injection  
—, hypervascular small HCC treated by (A) . . . . . 238  
—, nodular HCC treated by (A) . . . . . 238
- Percutaneous decompression  
—, of iliopsoas hematoma . . . . . 114
- Percutaneous drainage  
—, CT-guided, emphysematous pyelonephritis treated by (A) . . . . . 546
- Percutaneous ethanol ablation therapy  
—, intraperitoneal seeding from HCC following . . . . . 261
- Percutaneous needle biopsy  
—, for suspected biliary or pancreatic cancer without radiographic mass . . . . . 307  
—, of pancreatic and biliary ductal strictures, editorial commentary on . . . . . 311
- Percutaneous transluminal angioplasty (PTA)  
—, for renovascular hypertension in children (A) . . . . . 361
- Peripelvic cysts  
—, simulating hydronephrosis on US . . . . . 346
- Peritoneal carcinomatosis  
—, value of MRI in identification of . . . . . 235
- Peritoneal involvement  
—, in colon cancer, prognostic value of (A) . . . . . 612
- Pheochromocytoma  
—, clinicopathological study of 50 cases of (A) . . . . . 613
- Phytobezoar  
—, small bowel obstruction caused by . . . . . 471
- Placenta  
—, ultrasonography of . . . . . 602
- Pneumatosis cystoides coli  
—, colocolic intussusception caused by . . . . . 392
- Pneumatosis cystoides intestinalis  
—, following chemotherapy . . . . . 395
- Portal hypertension  
—, after TIPS (A) . . . . . 453  
—, in children, sonographic and color Doppler findings of . . . . . 72  
—, in cirrhosis, endoscopic US for study of (A) . . . . . 121
- Portal vein  
—, invasion by pancreatobiliary carcinoma into . . . . . 434  
—, nodular regenerative hyperplasia of liver and absence of . . . . . 506
- Portal vein aneurysm  
—, CT and sonography of . . . . . 287  
—, detected by color Doppler sonography . . . . . 281
- Portal vein thrombosis  
—, gallbladder varices directly communicate with portal vein in . . . . . 82  
—, in children and young adults, sonographic findings of . . . . . 72  
—, intraoperative US diagnosis of . . . . . 401
- Portal venous flow augmentation  
—, effect on liver enhancement with CT . . . . . 277
- Portography  
—, CT arterial, combined with spiral CTA for liver tumor detection . . . . . 404

- Portosystemic shunt  
—, extrahepatic, without portal hypertension . . . . . 79
- Positron emission tomography (PET)  
—, with F-18 fluorodeoxyglucose, recurrent rectal cancer detected by . . . . . 332
- Power Doppler sonography  
—, for imaging of and evaluation of resistive index in hepatic focal nodular hyperplasia . . . . . 268
- Pregnancy  
—, fast-scan MRI during . . . . . 589  
—, ultrasonography of cervix during . . . . . 569  
—, ultrasonography of placenta during . . . . . 602
- Primary sclerosing cholangitis  
—, role of imaging techniques in diagnosis and followup of . . . . . 194
- Prostate  
—, endorectal surface coil MRI of . . . . . 348  
—, patient tolerance of transrectal ultrasound-guided biopsy of (A) . . . . . 613
- Prostate cancer  
—, bone scintigraphy for assessment of (A) . . . . . 614  
—, efficacy of preoperative CT scanning for evaluating lymph node metastasis of (A) . . . . . 122  
—, transrectal ultrasound vs. digital rectal examination for staging of (A) . . . . . 454
- Prostatectomy specimen  
—, correlation of Gleason score of needle biopsy and (A) . . . . . 362
- Prostatic carcinoma  
—, level of PSA and staging bone scan in patients with (A) . . . . . 547
- Pseudoachalasia  
—, differentiation from achalasia by CT (A) . . . . . 544
- Pseudolesions  
—, effect of liver cirrhosis on (A) . . . . . 238  
—, hepatic, differentiation from tumor by aberrant gastric venous drainage . . . . . 502
- Pyelography  
—, complements CT of renocolic fistulas . . . . . 96
- Pylephlebitis  
—, as complication of appendicitis, intraoperative US diagnosis of . . . . . 401
- Radiation therapy  
—, pelvic silicone prosthesis to protect against . . . . . 175
- Radioisotope penile plethysmography  
—, role in evaluating penile hemodynamics in impotent patients . . . . . 354
- Radiology  
—, breast imaging, women's fellowships for . . . . . 551  
—, of small depressed neoplasms of large bowel . . . . . 325
- Rectal cancer  
—, histopathologic features of (A) . . . . . 611  
—, local recurrence detected with F-18 fluorodeoxyglucose PET imaging . . . . . 332  
—, recurrent, MRI for diagnosis of, editorial commentary on . . . . . 343  
—, three-dimensional endosonography for staging of (A) . . . . . 545
- Rectosigmoid carcinoma  
—, recurrent, distinguished from fibrosis by MRI . . . . . 338
- Reflux esophagitis  
—, solitary ulcers in . . . . . 5
- Renal cell carcinoma  
—, imaging methods for detecting pseudocapsule of (A) . . . . . 239  
—, MRI evaluation of . . . . . 216
- Renal cysts  
—, arterial blood pressure and (A) . . . . . 546
- Renal echinococcosis  
—, clinical study of (A) . . . . . 454
- Renal mass  
—, fine needle aspiration of (A) . . . . . 613
- Renocolic fistulas  
—, CT and direct pyelography of . . . . . 96
- Renography  
—, diuretic, of partial uretic obstruction (A) . . . . . 239
- Renovascular hypertension  
—, in children, PTCA for (A) . . . . . 361
- Resistive index  
—, role in diagnosis of obstructive uropathy (A) . . . . . 546
- Retroaortic left renal vein  
—, Budd-Chiari syndrome caused by . . . . . 499
- Retrograde pyelography  
—, gadoteridol as contrast media for . . . . . 233
- Retroperitoneum  
—, foregut cyst in . . . . . 111
- Sagittal images  
—, resectability of esophageal carcinoma determined by . . . . . 20
- Sarcoidosis  
—, gastric, different radiologic appearances of . . . . . 248
- Sclerotherapy  
—, effect of visceral-spermatic vein shunts on . . . . . 226
- Scrotal diseases  
—, B-mode and color flow duplex US in diagnosis of (A) . . . . . 362
- Segmental transcatheter arterial embolization  
—, hypervascular small HCC treated by (A) . . . . . 238
- Seminal vesicles  
—, endorectal surface coil MRI of . . . . . 348
- Sigmoid lipoma  
—, intussusception and extrusion of through anus after barium enema . . . . . 389
- Sigmoidoscopy  
—, significance of  $\leq 5$  mm adenomas detected by (A) . . . . . 360
- Small bowel  
—, combined enteroscopy-enteroclysis in examination of (A) . . . . . 452  
—, crescent-shaped necrosis as imaging sign of stromal tumor of . . . . . 376  
—, severity of liver disease and motility of (A) . . . . . 544
- Small bowel obstruction  
—, due to phytobezoar, CT diagnosis of . . . . . 471  
—, in children, CT evaluation of . . . . . 466  
—, secondary to bezoar, CT diagnosis of . . . . . 315
- Small intestine  
—, GI bleeding caused by schwannoma in . . . . . 154
- Spermatic veins  
—, anastomoses between visceral veins and . . . . . 226
- Sphincterotomy  
—, endoscopic, pancreatic diseases treated with . . . . . 489  
—, for common bile duct stones after laparoscopic cholecystectomy (A) . . . . . 546
- Spleen  
—, primary amyloidosis and visceral calcification of . . . . . 519
- Splenomegaly  
—, measurement of and relation to hypersplenism (A) . . . . . 238
- Stents  
—, esophageal, complications and radiographic appearances of . . . . . 14
- Stomach  
—, different radiologic appearances of sarcoidosis in . . . . . 248  
—, involved in Waldenström macroglobulinemia . . . . . 461
- Stromal invasion  
—, by uterine tumors, evaluated by T2-weighted, dynamic, postcontrast T1-weighted MRI . . . . . 103
- Stromal tumor  
—, of small bowel, crescent-shaped necrosis on US as sign of . . . . . 376
- Struma ovarii  
—, unenhanced and contrast-enhanced MRI of . . . . . 100

- Superior mesenteric artery (SMA)  
 —, effect of ileocecal region inflammation on Doppler US of . . . . . 483, 487
- Superior mesenteric vein  
 —, CT and sonography of . . . . . 287
- Superparamagnetic iron oxide (SIPO)  
 —, MRI of focal nodular hyperplasia using . . . . . 264
- Switzerland  
 —, overuse of upper GI endoscopy (A) . . . . . 452
- Teratoma  
 —, cystic, coexisting in ovary and omentum. . . . . 516
- TNM staging  
 —, of gastrointestinal tumors by hydrosoneography . . . . . 24
- Tracheoesophageal fistula  
 —, nonexpandable silicone esophageal stents for treatment of. . . . . 14
- Transjugular intrahepatic portosystemic shunts (TIPS)  
 —, portal hypertension after (A) . . . . . 453
- Translabial sonography  
 —, of cervix during pregnancy . . . . . 569
- Transrectal ultrasound-guided biopsy  
 —, of prostate, patient tolerance of (A) . . . . . 613
- Transvaginal sonography  
 —, of cervix during pregnancy . . . . . 569  
 —, of endometrium . . . . . 557
- Tuberculosis  
 —, CT of chylous ascites due to . . . . . 50
- Ulcers  
 —, solitary, in reflux esophagitis . . . . . 5
- Ultrasonography  
 —, abdominal, compared with techniques in preoperative detection of pancreatic insulinoma . . . . . 295  
 —, B-mode and color flow duplex, scrotal disorders diagnosed by (A) . . . . . 362  
 —, colonic wall thickness in cystic fibrosis patients measured by (A) . . . . . 545  
 —, color Doppler, aberrant gastric venous drainage shown by. . . . . 502  
 —, color Doppler, gallbladder carcinoma with empyema diagnosed by . . . . . 187  
 —, color Doppler, in hepatic focal nodular hyperplasia. . . . . 178  
 —, compared with EUS for diagnosing choledocholithiasis (A) . . . . . 453  
 —, diagnosis and followup of primary sclerosing cholangitis by . . . . . 194  
 —, Doppler, of partial uretic obstruction (A) . . . . . 239  
 —, duplex Doppler, of superior mesenteric artery . . . . . 483, 487  
 —, endoscopic, choledocholithiasis diagnosed by (A) . . . . . 453  
 —, endoscopic, for study of portal hypertension in cirrhosis (A) . . . . . 121  
 —, endoscopic, insulinomas and gastrinomas localized by (A) . . . . . 238  
 —, endoscopic, of pancreas at removal of polyethylene duct stent (A) . . . . . 121  
 —, endoscopic, pancreatobiliary carcinoma detection and portal venous invasion assessed by . . . . . 434  
 —, high resolution, of bowel wall in ileitis and colitis . . . . . 167  
 —, ingested foreign bodies in inferior vena cava detected by . . . . . 108  
 —, intraoperative, of pylephlebitis as complication of appendicitis . . . . . 401  
 —, laparoscopic, for abdominal tumor staging . . . . . 125  
 —, ob/gyn, women's fellowships for . . . . . 551  
 —, of aneurysms of portal and superior mesenteric veins . . . . . 287  
 —, of cervix during pregnancy . . . . . 569  
 —, of endometrium . . . . . 557  
 —, of placenta during pregnancy . . . . . 602  
 —, of portal hypertension in children and young adults . . . . . 72  
 —, real-time, of urinary bladder volume, compared with MRI (A) . . . . . 240  
 —, recurrence of colorectal cancer and diagnostic value of negative intraoperative (A) . . . . . 452  
 —, role in cervical carcinoma . . . . . 208  
 —, stromal tumor of small bowel exhibited as crescent-shaped necrosis in . . . . . 376  
 —, three-dimensional, intragastric distribution and gastric emptying assessed by (A) . . . . . 611  
 —, transrectal, vs. digital rectal exam for staging of prostate cancer (A) . . . . . 454  
 —, transvaginal, gynecological disorders assessed by hysterosalpingo-contrast sonography during. . . . . 243
- Upper gastrointestinal tract  
 —, NSAIDs and bleeding in (A) . . . . . 544
- Upper tract tumors  
 —, primary bladder cancer and (A) . . . . . 122
- Ureteral obstruction  
 —, spiral CT in detection of (A) . . . . . 547
- Urethral strictures  
 —, diagnosed as primary isolated amyloidosis . . . . . 448
- Urinary bladder volume  
 —, US and MRI in assessing (A) . . . . . 240
- Urinary tract obstruction  
 —, role of renovascular resistive index measurement in diagnosis of (A) . . . . . 546
- Uterine bleeding  
 —, abnormal, transvaginal sonography and hysterosonography of . . . . . 557
- Uterine lymphoma  
 —, primary, MRI of. . . . . 441
- Uterine neoplasms  
 —, rapid T2-weighted MRI of. . . . . 531
- Uterine tumors  
 —, misdiagnosis by MRI of stromal invasion by . . . . . 103  
 —, MRI of . . . . . 579
- Uterus  
 —, hysterosalpingo-contrast sonography of . . . . . 243
- Varices  
 —, after cholecystojejunostomy, shown by enteroclysis . . . . . 474
- Visceral veins  
 —, anastomoses between spermatic veins and . . . . . 226
- Waldenstrom macroglobulinemia  
 —, gastric involvement in . . . . . 461
